

Believes That The Future Of Canada Will Rest With Our Returning Overseas Soldiers

(By Tom Mims)

CYRIL CREPARI said in a message that his 14 Canadian Army is about to disband and that he believes the future of Canada rests in the hands of Canadian overseas soldiers who he will be given the opportunity to prove in peace and practice the valuable characteristics they demonstrated during the war.

His message was: "I am sure that the future of Canada rests in the hands of our overseas soldiers who have proved themselves in peace and practice the valuable characteristics they demonstrated during the war. I am sure that the future of Canada rests in the hands of our overseas soldiers who have proved themselves in peace and practice the valuable characteristics they demonstrated during the war."

The Channel Islands

Have Been Attached To England

Unconditional surrender of Germany's armed forces freed from the Channel Islands, first British possession to fall into enemy hands in this war.

The little cluster of rocky islands in the English Channel was occupied by German troops July 1, 1940, a few days after the fall of France.

Prime Minister Churchill stated that the Channel Islands were to be treated as "free territory."

The British government in its broadcast announcing German occupation of the Channel Islands said:

"The Channel Islands have been placed under the administration of the German occupying forces and will be treated as 'free territory'."

They were by-passed when the German army moved on to Paris and France was overrun by the German army.

A German garrison estimated to be 20,000 men, 10,000 of whom had been holding on to the islands since the fall of France.

The islands have been suffering a serious food shortage during the past year because of the blockade.

It is estimated that 70,000 of the islands' population of 100,000 are suffering from lack of food.

The Common Potato

Has Been Found For Cattle

Word comes from Australia that with an abundance of supplies the potato is being planted in this war.

The potato is being planted in this war because of the shortage of food.

Goos By Names

There Are Only Names In Chinese Telephone Book

Angus F. Cron, special correspondent of the Ottawa Evening Citizen, told the Ottawa Evening Citizen that the Chinese telephone book is certainly one of the oddest books in the world.

There are 2,300 Chinese telephone numbers in the Chinese telephone book, but only the names of the subscribers are listed.
